**Steyoyoke** welcomes **Oliver Schories** with the latest EP, '**Time Lapse**'. The self-titled album includes an original by Oliver Schories, and two remixes; **Pete Oak**'s twisted take, and Steyoyoke veterans **Aaryon** and **Animal Picnic** appealing approach to 'Time Lapse'.

Oliver Schories has composed a climatic conversational piece with '**Time Lapse**'. A simultaneously dark and bubbly track, the bass line is accompanied by dangerous melodies and mysteriously enticing vocals. Like running through a dream, Oliver Schories has successfully given his music that ethereal touch, certainly making himself sound at home.

**Pete Oak**'s remix of 'Time Lapse' takes the vocals apart and sets them back together in an alluring manner. Pete Oak includes his own emotive reflection, producing a high-energy remix with piercing synths and hypnotic aural teasers. Complexly winsome music, Pete Oak also makes his way on Steyoyoke with this killer remix.

**Aaryon** and **Animal Picnic** approached the task by toning down the original 'Time Lapse', focusing initially on more simple elements behind the track and using musical contrast to make the vocals and synths stand out. A deep and cryptic remix, Aaryon and Animal Picnic have managed to include their individual strengths within this piece.

'**Time Lapse**' is another gem to add to the Steyoyoke treasure box, embracing Oliver Schories to the roster of artists who have found Steyoyoke to be a suitable home for their creations. Aaryon, Animal Picnic, and Pete Oak warp 'Time Lapse' with their own unique touches, making this dynamic EP a real representation of what Steyoyoke is all about.
