The past 4 years have nothing short of the good, the bad, the ugly, and of course, the beautiful. **Steyoyoke** thanks you, our old and new fans, for the substructure of love and support upon which this label is built. We bring you ultramodern remixes of our liveliest tracks from 2015 on the latest EP, **Steyoyoke Anniversary Vol. 04**, to celebrate the new year, including remixes by: **Philipp Kempnich**, **Cid Inc**, **Oliver Schories**, **MIDAS 104**, and **Jonas Saalbach**.

Philip Kempnich remixes Aaryon and Ran Salman's '**Riptide**', fundamentally shifting the patterns of sound consistently to leave you with an ever-pleased, tingly aural sensation. Cid Inc brings us his take on Nick Devon's '**The Poem**' featuring Miroir, taking advantage of the earthy bass line through a complimentary arrangement. Oliver Schories faced Soul Button and BLANCAh's '**Rising Silence**' turning this track into a twisted fantasy guaranteed to engulf you. MIDAS 104 approaches Animal Picnic's '**Gravity**' with a bold confidence evident in the layout of this true anthem of ethereal techno, with a hint of funk! Lastly, but not leastly, Jonas Saalbach remixes Dahu and MPathy's '**Shattered**' sticking to the darkness that is, while adding minimalistic elements to make this track simultaneously sink in and pop out in the most unpredictable and astounding ways.

Thank you to all our long-time fans that have loved us from the start, and to our new fans who we welcome with open arms into our family. We hope 2016 hold love, happiness, health, and most importantly, lots of ethereal techno - join us in Berlin for our 4th anniversary party at the legendary Ritter Butzke where we will pay tribute to the heart of our movement.
