

# STEYOYOKE BLACK

Urbanstr. 36d, 10967 Berlin - Germany

'**Steyoyoke Black**' is the new sublabel from **Steyoyoke Recordings**. Its focus is toward a darker, slightly more techno driven sound, however it maintains that well known Steyoyoke groove and melody. With the upcoming return of techno in the electronic scene, Steyoyoke wants to distinguish this new direction with a roster from several artists, that already carry the fresh deep house sound of the 'mother' label.

'**Steyoyoke Black**' will also continue to create a balance between art and the music. The covers will comprise of plain black and white and will once again feature handmade sketches from **Azuldecobalt**, which have become synonymous with the 'Steyoyoke Label'.

The label will release music from artists such as **Pete Oak**, **Soul Button**, **Dahu** and **Nick Devon**, as well as other new talented producers, like young Italian **Skena**. 'Steyoyoke Black' will release digital and some special limited edition vinyls soon. Stay tuned.
