

Artist: Binaryh
Title: Positive Negative
Label: Steyoyoke Black
Format: Digital
Release Date: October 2nd, 2017
Cover Art: BLANCAh

Cat No: SYYKBLK029

Sink your ears into the latest release from Steyoyoke Black's eclectic collection of soul-searching electronic numbers: a four-piece EP from the masterful Brazilian electronic duo, Binaryh. Fittingly titled '**Positive Negative**', the EP ranges from emotional moments of sensitivity and realness to raw glimpses of energy and drive. What results is the perfect balance of calm and chaos, love and rage, positive and negative.

The first track '**One Digit**' begins with slow and calculated rhythmic tension, which persists over a slightly dissonant melody and builds to an epic crescendo. The heat and intensity of this song is balanced in track two with an extended and slightly more airy introduction, which converts gradually into the insistent release of angst and disruption.

Track three, '**Consilium**', rises gracefully from the ashes of the previous numbers, providing a fresh perspective, a redeeming moment of clarity and curiosity infused with a desire for more. The extended cut lingers luxuriously on the transition from hard to soft, allowing the listener to get lost in this inviting dream world before being propelled forward into the unknown.

The impact of the EP as a whole is an emotional journey inward through the human psyche. A battle of the self, encapsulating all the conflicting aspects of emotion and struggle, translated into an intuitive and unvarnished piece of art.
