Inner Symphony veterans **Clawz SG & Mashk** come together for this collaborative track, “**Chrysalis**” and its two remixed iterations by **Bessiff** and **Modul Art**. Rich in texture and complexity, each track tells its own version of an emotive narrative through robust synthesizers and melodies.

“**Chrysalis**” carries a driving rhythm that builds to a crescendo of cinematic synths that elicit feelings of longing in the listener. It seemingly tells a story, like the butterfly or moth emerging from its transformative state. **Bessiff** gives an ominous take on this plot, with darker pulses of synths weaving between the melodies. **Modul Art** creates a more cerebral, yet dance-inducing atmosphere with rhythmic variation throughout.

A captivating release by the two French producers, **Chrysalis** and its remixed accompaniments demand multiple listens to get a true feel for the stories they tell.
