In the blink of an eye **Steyoyoke** finds itself approaching its second birthday. A lot has changed since the label first emerged on the scene and tremendous strides have been taken in becoming a label to reckon with on the scene. In mark of such efforts the label has put together its second **Anniversary EP**, featuring four remixes from four top artists on some of the labels highlights of the last year.

'**Play Again**' was the title track and seducer of **Soul Button**'s engaging EP release earlier last year. **Pete Oak**'s remix of this gritty affair carries the same devilish charm and attitude as the original but with an added pinch. Gravitating around those, Pete Oak's remix packs a punch with couple of heavy drops.

Patrick Podage takes aim next with a well balanced remix of **Florian Rietze**'s '**Treibholz**'. A thunderous bassline surges this downtempo treasure into life, sending the elements scattering across a progressive and steady groove. Contrasting strings keep the raw emotion within this dreamy landscape.

Brazilian pair **Flow & Zeo** take a strong hand to **Soul Button** and **Sasch**'s collaborative work '**Little People**'. What was once a track that held a delicate touch, now holds charge as it moves with purpose and alarm. Rising and falling with precision, Flow & Zeo produce a rollercoaster of a remix.

Wrapping things up is **Stevie R** and **Ian McKenzie**'s remix of **MPathy**'s provocative '**I'm Yours**'. Emerging slowly out the blocks, the remix builds to become the eccentric jewel in the crown. Notes that appear drunk as they dance between a steady groove make this a quirky adventure for the ears. Maintaining the same enticing vocals and original tribal percussion help keep the heat.

All tracks will be available on **vinyl** from the **14th of February** and in **digital** on the **10th of March** with the additional **Pete Oak Dub Remix** of '**Play Again**'. The 14th of March will see the label hitting Ritter Butzke to celebrate their second birthday coinciding with the release of the Anniversary EP. All featuring artists will be playing their part in showing that there is still plenty more to come from Steyoyoke.
