Steyoyoke's **Family Affair** series returns to mark its 8th edition to date. The second half of this double release features remixes by Steyoyoke core producers **Nick Devon**, **Simon Sizer** and **Arude**.

**Nick Devon** introduces his usual well-defined pace to **JOBE**'s '**Dystopia**', but diversifies in percussion elements. Great evolution as well.

**Simon Sizer** comes in remixing '**Indra**' from family chief **Soul Button** delivering a sinister soundscape full of echoing sharp elements, making the ambience apparent and notably dark.

Finally Simon gets a treatment on his own '**Aconit**' by Ukrainian talent '**Arude**' which crafts a proper Techno groove as he reinforces the track's commitment to murkiness.

That's what **Family Affair** is all about. Artists lend their techniques and unique views to other highly skilled producers and their pieces, providing beautiful alternative versions of the tracks we already love.
